Applications: Xcode, Eclipse, MySQL, SQL Server, Postgres, nginx, Apache, Visual Studio.

Platforms: Mac OSX, iOS, Linux, Windows, Android.

Work Experience

Co-founder at Instee 2013 – Present

Created, and coded the iOS app. Notable achievements are the custom animations throughout the app and remote image loading.

Developer at Lightspeed Systems 2011 – Present

Developed several different applications ranging from low-level, cross platform networking services in C to mobile apps for iOS and Android. Lead developer for the all iOS projects, including a social networking/LMS app.

QA Engineer at Lightspeed Systems Jan 2011 – Jun 2011

Tested code to ensure quality, as well as checking code for accuracy and created documentation.

Support Engineer at Lightspeed Systems Jan 2010 – Dec 2010

Worked in all aspects of customer service and troubleshooting customer support issues. Top case taker and still hold the most customer cases taken in a year.

Anti Virus Engineer at Lightspeed Systems Aug 2009 – Jan 2010

Worked in all aspects of customer service and troubleshooting customer virus issues. Worked in detection, removal, and prevention.

Education

The Masters College - 2015
